(via email)

Re: Drinking water & wastewater Allocation and Service

Dear Joe,

The Town of Hinesburg is able to serve lots 3-8 of your Mechanicsville Road project's drinking water and wastewater capacity needs of 2560 gpd and 1260 gpd, respectively. Formal allocation and payment of fees are required (unless already paid) as specified in Hinesburg Town Ordinance.

Sincerely,

Erik Bailey,

Director of Utilities & Facilities
