

Hinesburg Development Review Board

Lavalette Conditional use review for a commercial cordwood operation.

Hearing December 20th, 2022 at 7:00pm

We have recently moved to Beaver Pond Road 6 months ago in June 2022. We have yet to meet all of our neighbors on the hill. Due to our limited experience and interaction thus far we don't have much of a personal stance at this time. The one thing we do wonder about is how the logging business might impact the road itself and what it will look like to maintain the road from the bottom of the hill up to the operation site which is across from our driveway.
